

## Math, Unfortunately

A something pure in  
there as with some paint-  
ing, poetry, other graces,  
yet all high literates burn  
to flaunt notation, fling-  
ing skeins of symbols fast  
as they can write.

That's nice, but nudge  
me at the core if

you know how.

Let me touch, linger  
in a grove. Later,  
browse the foliage.
